

With 6,200 employees in research, teaching and administration and its unique profile, TU Dortmund University shapes prospects for the future: the interaction between engineering and natural sciences as well as social sciences and cultural studies drives both technological innovations and progress in knowledge and methodology. It is not only the roughly 34,200 students who benefit from this.

The Faculty of Computer Science at TU Dortmund University is seeking to fill the position of a

Professorship (W2) in “Data Mining”

commencing as soon as possible. The successful candidate will specialize in research and teaching in the field of data mining.

TU Dortmund University is seeking an outstanding scientist in the field of data mining with a current research perspective and publications in high-ranked international venues.

Applicants should complement the research activities of the Faculty for computer science and contribute to interdisciplinary collaborative research projects, especially the collaborative research centre SFB 876 “Providing Information by Resource-Constrained Data Analysis“.

An adequate contribution to the faculty’s curriculum is expected.

The successful candidate should possess social and leadership skills and be willing to be involved in academic self-governance.

Hiring requirements are based on § 36 HG of the State of NRW.

TU Dortmund University strives to increase the number of women in academic research and therefore encourages women to apply.

Equally qualified candidates with disabilities will be given preference.

TU Dortmund University supports the compatibility of work and family life and promotes gender mainstreaming in the university community.

Meaningful applications, including the usual documents (CV, list of publications etc.), should be sent by e-mail (in one pdf-file) to the following address by 28th September 2017

Dean of the Faculty of Computer Science

Prof. Dr.-Ing. Gernot A. Fink
